- Easy to don and doff.

Suggested L-codes:

- Above Knee: L-5964
- Below Knee: L-5962

WARNING: Not designed for total submersion past the top of the leg cover. Doing so may result in water entering and damaging the prosthetic device. **Read usage instructions carefully before use.**

Protect your prosthetic leg from water, snow, mud and sand!

Fabtech Systems Advanced Cover Systems (ACS), Prosthetic limb covers have been designed to provide maximum protection for your prosthesis from the elements encountered in everyday use and sports. Now you don't have to worry about water, snow, mud and sand damaging your expensive prosthesis!

Made from high tech Antactech water repelling fabrics and high stretch neoprene, our 3 layer waterproof design is breathable and provides a waterproof barrier.

Our ACS covers are functional, easy to don and doff, stylish and deliver the highest performance for active users.

So grab the family, hit the beach, trail, boat, backcountry or field... Get Active, Get ACS!
